Introduction:

Client is considering installing 1 outdoor padel court in Ølandsvej 12 8800 viborg, Denmark.

Our offer includes our standard MANZA. For the purpose of this offer, padel court is equipped with a metal structure for its indoor installation, 10mm tempered glass and last generation of texturized synthetic turf. Quotation includes the transport to Ølandsvej 12 8800 viborg, Denmark.

All our courts are studied by an engineer and comply with required European regulations and rules of International Padel Federation.

Details of the offer:

1) PADEL COURT MODEL MANZA

Technical specifications:

Court structure	Welded Mesh
- Pillars with dimensions 80x80x3 mm in the glass section of the court with anchor plate with dimensions 250x200x10 mm with 4 x Ø 16 mm holes for the bolts. Including horizontal reinforcement tubes 40x40x2 mm at ground level for higher impact resistance. - Pillars with dimensions 80x80x3 mm on the sides in the mesh section of the court with anchor plate dimensions 250x200x10 mm with 4 x Ø 16 mm holes for the bolts. - Colour: to be selected from RAL scale (epoxy/polyester powder coating). - All screws for installation included.	- Electro-welded mesh with measures 50x50x4 mm and with double reinforcement tube 40x40x2 mm at height 1 and 2 meters to provide higher resistance. - Frames with dimensions 40x40x2 mm with electro-welded mesh with measures 50x50x4 mm and with double reinforcement tube 40x40x2 mm at height 1 and 2 meters to prevent warping and to provide higher resistance. At three meters reinforcement tube with dimensions 80x80x2 mm. - Pillars and mesh frames create structure with dimensions 120x80 mm. - Between each frame there is a protective system to prevent any injuries.
Glass	Surface
18 modules of tempered glass with thickness 10 mm with flat polished edges and countersunk holes, modules with dimensions 1995x2995 mm (6 holes). All modules are perfectly aligned and the flatness is optimal. All accessories for installation included. - The glass complies with the UNE-EN 12150-2:2005 (Glass for buildings and constructions) and UNE-EN 12543-2:2011	- Synthetic grass model texturized, TURFGRASS: - Composition: 100% Polyethylene - Yarn height: 11 mm - Stitches m2: 67.200 - Yarn Dtex: 6.750 Dtex - Colour: Blue - Infill: Silica sand 0.2-0.8 mm (1.670 kg)

- Scoreboard.....	120€ / set
- Protection Net 10x2m + pillars.....	550€
- Protection Net 14x2m + pillars.....	860€
- Protection Net 20x3m pillars.....	920€

GENERAL CONDITIONS:

Installation:

- The client is responsible for the following material to be included in the work: Light point and cable extension, ladders, rubbish container, brushes for sanding the lawn, transpallet (if it is necessary to move material).
- After 10 days from the date of departure, if the client does not load the goods or is delayed, there will be a cost of €100 per day for storage.
- The costs of waste generated on site are to be covered by the customer.
- A day of work lost due to causes beyond our control would cost €300 per person. External causes: Not having a lift for nets, not having the means to unload the material, arriving at the site and the foundation is not in good condition and we cannot start with the installation, etc.
- The cost of installation does not include the unloading of materials.
- The unloading must be done according to our instructions (glass inside the court area, structure in the court or less than 2m away, sand on the side of the court, grass inside the court area, etc.). When this is not the case, there will be an extra cost to move the material to its place.
- Regarding lighting, the project cable is supplied to the court, but does not include any installation by Manza Sport. If this work is needed it will be done in a separate quote.
- Paralysis of truck: if there is no means of unloading, a penalty of 400€.

Warranties:

- **Structure (2 years).**

- **Glass (2 years).** Does not include spontaneous breakage. Once the court has been installed correctly, the tempered glass should not give any problems.

- **Turf (guarantee according to supplier) (3 years).** Guarantee of material never of the use.

- The guarantee applies exclusively to the products; it does not include disassembly, assembly or transport of the product. Returns of material that is not properly packaged and in good condition will not be accepted. This guarantee will not be valid in the event of: misuse and/or improper storage of the product, incorrect handling or assembly of the product in accordance with the manufacturer's specifications, deterioration of the product due to external action, improper maintenance, lack of cleaning and/or use of spare parts or maintenance material not supplied by the manufacturer, as well as deficiencies in the civil work (concrete foundations and others) that may lead to a faulty installation. Any product that has not been paid for within the agreed terms of sale shall not be covered by the guarantee. All claims must be communicated in writing, indicating the order reference, the date of delivery of the material and the date of the problem with the material.

Delivery:

- Manzasport shall deliver and install the padel courts within the agreed timeframe. Normally 2-3 weeks.

Payment terms:

- **50%** At the time of confirmation of the order (signing agreement).
- **50%** At the time of loading the material to the truck.

Both parties agree to resolve conflicts, and expressly waiving their own jurisdiction if they will have it, to the jurisdiction of the courts and tribunals of the city of Valencia.
